

Plan Hamilton Drafts

RE: Tracking for April 2025 latest AREA PLAN versions now made ready for the May 12th RPC review See [Plan Hamilton.org](https://planhamilton.org)

During the Regional Planning Commission's review on Jan 13th, 2025 Plan Hamilton was deferred for additional input with areas east of the river (9-Northeast County & 12-White Oak Mountain) requesting that a working committee be formed as a local task force. Regular meetings have been held since January 2025 with a reexamination of residential Place Types and Rural Corridors serving as the primary focus of the committee's work. Some of these improvements were applied across all planning areas as part of a final review to address oversights in terms of grammar and other minor wording corrections.

The adoption of Area Plans under Plan Hamilton is scheduled to resume this spring with updated versions (April 2025) now posted and available. The following list is intended to highlight the most significant changes as the latest versions of the Area Plans are reviewed. Both RPA and County staff are available to answer questions at rpa@planning.gov

Plan Revisions for Area 9 - Northeast County Note: The Area 9 Plan has been substantially revised. The County formed a committee of community members who worked with county leaders to address concerns and build consensus. The draft plan builds off of the public input and work done previously and is a result of the additional collaboration between that committee and area leaders. The draft consensus plan was discussed at a public meeting on April 7, 2025 See *chart below for more details*.

Tracking List of Changes updated Apr 28, 2025

Plan Hamilton Areas	Area 7	Area 8	Area 13	Area 12	Area 9	Notes
Major Changes						
Additional WWTA info	p 28	p 34	p 33	p 35	p 23	"...existing capacity and available financial support substantially limits new sewer

Plan Hamilton Areas	Area 7	Area 8	Area 13	Area 12	Area 9	Notes
						availability in the unincorporated county in the short and mid-term."
